

THOMAS CHARNOCK

Digital Media Producer and Director

Who am I?

I am 21 years old and in my final year at the University of Salford, where I am studying Digital Media and Extended Reality.

I've moved from a technical theatre background to filming and then to Digital Media and TV at university where I helped start Salford Sports TV in my first year of university and in my third year I got voted as Head of Technical Operations for Quays TV.

Skills

- Photoshop
- Illustrator
- Unreal engine
- Web design (HTML)
- After Effects
- Final Cut Pro
- Maya
- Fusion 360
- First Aid Trained

EXPERIENCE

Head Of Technical Operations for Quays TV

2025 - Present

I work with students and staff at the University of Salford teaching them how to use our studio and gallery as a Presenter, Quizmaster, Interviewer, Broadcast Engineer, Director, Autocue operator, Sound operator, Production Assistant and Producer in our Media City Campus.

Head of Video and Post Production for Salford Sports TV

2024 - Present

I film University of Salford Sports teams with other students at the University of Salford and am on hand as the technical expert to help teach others how to use the Cameras, mics, lightings and live streaming equipment. I am also there for any of our editors to help create game cards and assist with editing and uploading to our YouTube Salford Sports TV.

School Rep for Creative Technology at the University of Salford

2024 - Present

I am the School representative for Creative Technology which has given me the opportunity to expand on my work as a course rep and help support Creative Technology course's and the students and course reps fix issues, run social events, promote their courses and assist sabbatical officers with their work.

Explorer and Beaver Leader

2022 - Present

As scouting has helped me develop my skill and myself I have decided to give back by being a leader for Beavers and Explorers volunteering my time on Tuesday nights which has me helping lead the meeting and helping the Beavers and Explorers complete projects during the meetings.

Formby High School's Tech Crew's Tech Supervisor

2021 - 2023

In the tech crew we train each other to use lighting, sound, AV, fog, smoke and camera equipment so they are able to tech performances and run each respective system. I have been a part of the Tech Crew since 2017 when I joined on the first day of year 8 and I have worked my way up the ranks to Head Tech (2019) and then to Supervisor (2021). In the Tech Crew I mentored my fellow students in all areas of technical theatre and I've been a role model to the younger students and it has been incredibly rewarding seeing the people they have become even since I left in 2023 as the students I taught teach others.

Why I want to work in TV

I enjoy Producing, Directing, Vision mixing and operating the sound on live and prerecorded TV shows.

I also love commentating, filming and presenting sports live and for recordings which I would usually edit before uploading to the Salford Sports TV youtube channel.

I have a massive love for teaching/mentoring people and I'm very good at it especially when its to do with how to operate technology.
